Print the file

Instructions:

1. Download the worksheet and print the template.
2. Colour the Santa Mail sign, holly, stars, candy canes, Christmas tree, flag and handle.
3. Carefully cut around the solid outside lines of each mailbox piece. Cut out the curved cover, base, back, front door, handle, flag and postcard.
4. Fold all the small tabs inward and press each fold gently so it stays neat. Leave the large mailbox cover unfolded because you will gently curve it in the next step.
5. Curve the mailbox cover over the base. Add glue to the tabs and press the pieces together until secure.
6. Fold the tabs on the back piece, add glue and attach the back securely inside the mailbox.
7. Fold the bottom tab of the front door and glue it to the base. Leave the rest unglued so the door can open.
8. Glue the handle onto the door and attach the Christmas flag to the side. Let everything dry.
9. Write or decorate your To Santa letter, pop it inside and close the door. Your Christmas mailbox is ready!
