SANTA | GIFT BASKET

Download the file

Print the file

Instructions:

1. Download and Print the Gift Basket worksheet, so it is ready to colour, cut and create.
2. Colour the basket, Santa, mittens, bow and handles. Add your favourite Christmas colours and patterns.
3. Carefully cut around the outside edges of the basket and decorations. Ask an adult for help if needed.
4. Fold along the lines where the basket panels meet. Press each fold gently to keep it neat.
5. Fold the basket into shape, glue the tabs together and press firmly until secure.
6. Glue Santa to the basket so Santa looks like they are popping out from the top.
7. Cut out the mittens and glue them onto Santa so it looks like Santa is holding the gift box.
8. Cut out the bow and strips, then glue them onto the basket to make it look like a wrapped present.
9. Cut out the long handle strip and glue each end to opposite sides of the basket. Press firmly and let the glue dry.
10. Let the glue dry, then fill the basket with lightweight treats, a card or a small Christmas surprise.
