Cut along the solid lines

## Instructions:

1. Begin by carefully cutting along the marked solid lines surrounding the waste items.
2. Stick cutouts to the coloured bin using glue stick, determining which waste category it belongs to for proper disposal.
3. Once completed, stick the coloured- bins in your classroom, showcasing the effective segregation of waste for environmental consciousness.
4. This activity not only educates on waste management but also promotes responsible disposal practices, fostering a culture of sustainability within the classroom and beyond.
