## Instructions:

1. Start by downloading and printing the flower craft worksheet.
2. Carefully cut out the flower template, which includes the stem and flower head (without petals). The flower head already has the words "Teacher, you are..." printed on it.
3. Use crayons, markers, or paint to decorate the stem and the flower head.
4. On the separate sheet, you'll find petals with words like "loving" and "fun" to complete the sentence. You can also write your own descriptive words on the blank petals and colour them too!
5. Stick the petals around the flower head, creating a full, colourful bloom.
6. Once complete, you can stick the flower onto a card or give it directly to your favourite teacher to make their day extra special!
