Instructions:

1. Download & Print your "Lantern" worksheet.
2. Decorate your lantern using bright colours! Don't forget to include traditional NAIDOC Week colours.
3. Use scissors (or a snap cutter) to carefully cut along the lines on the template. Only cut between the lines, don't cut through the top or bottom!
4. Use a glue stick to join the short ends of your sheet together to form a tube shape.
5. Gently bend the slits outward with your fingers. This gives the lantern its signature puffed look.
6. Colour the handle strip on the worksheet and cut it out. Stick each end to the inside top edges of your lantern using glue or tape.
