Instructions:

1. Start by downloading and printing the worksheet.
2. Gather your colouring supplies such as crayons, markers, or coloured pencils, along with scissors and glue.
3. Colour the flower and leaves with your favourite colours or patterns.
4. Once the colouring is done, carefully cut along the spiral line and cut out one or two leaves.
5. Begin rolling the flower from the outer edge towards the centre, keeping the base tight.
6. Secure the rolled flower by gluing the centre circle. Gently fan out the petals and curl the edges for a natural look.
7. Attach the straw or pipe cleaner as the stem and glue on the leaves.
8. Fluff the petals, straighten the stem, and trim any excess paper.
9. Your rolled paper flower is now ready to gift to your favourite teacher aide.
