Instructions:

1. Start by downloading and printing the Be Kind : Spinner Wheel worksheet template.
2. Before cutting out the wheel, colour in each section and the acts of kindness listed.
3. Carefully cut around the circle. Try to keep the cut smooth and as round as possible.
4. For assembling your spinner wheel, use a pencil tip to make a small hole in the centre of the wheel.
5. Place a paper clip in the middle so it can spin. Hold the paper clip in place with a pencil or a split pin pushed through the hole. Make sure the paper clip can spin freely and stop clearly on one wedge.
6. Spin the wheel to select a random act of kindness and try completing it.
7. Have fun and remember, every small act can make a big difference!
