Instructions:

1. Download the worksheet and print it out.
2. In this worksheet, you will see different icons spread out on the page (like marine creatures, sea plants and seaweed, and plastic waste such as bottles, bottle caps, forks, spoons, cans, and plastic bags).
3. Gather your colouring supplies, like crayons, coloured pencils, or markers.
4. Colour the worksheet neatly and make the sea animals and ocean plants bright and colourful.
5. Find the rubbish in the ocean and circle the plastic waste in red, especially the plastic bags and other plastic items.
6. Observe how plastic pollution can affect sea animals and their ocean habitat.
7. Learn the important message: plastic bags and rubbish can harm ocean life, so we should always help keep our oceans clean and safe!
