Instructions:

1. Download the worksheet and print it out.
2. Read each composting step carefully to learn how food scraps turn into healthy compost.
3. Look at the items below in the dotted box and identify where each one belongs in the composting process.
4. Use crayons, coloured pencils, or markers to colour the composting foldout and all the items in the dotted box.
5. Cut out the items carefully along the dotted lines.
6. Match each item to the correct step in the composting journey. Paste the items in the right place to complete the composting cycle.

COMPOSTING FOLDOUT WORKSHEET

READ THE STEPS BELOW AND LEARN ABOUT COMPOSTING:

6. Your plant is ready with extra nutrients	
5. Add compost to plants	
4. Dark, crumbly compost means it's ready to use	
3. Add worms to help break down the scraps	
2. Add scraps to the compost bin and keep it damp	
1. Collect fruit and vegetable scraps	

CUT OUT THE ITEMS AND PASTE THEM IN THE CORRECT STEP.
