Instructions:

1. Download the worksheet and print it out.
2. Colour in the Halloween pictures and basket handle on the template using crayons, markers, or pencil colours before cutting it out.
3. Carefully cut around the solid outside lines of the entire basket template. Do not cut along the dashed folding lines.
4. Fold along all the dashed lines to create the shape of the basket.
5. Fold the small tabs labelled "Glue" inward along their dashed/fold lines. Apply glue to the areas marked "Glue."
6. Cut out the basket handle and attach each end securely to the sides of the basket.
7. Allow the glue to dry, then your Halloween basket is ready to use!
